

### PROFESSIONAL SUMMARY

A results-driven Software Engineer with 4+ years of hands-on experience in designing, developing, and optimizing scalable enterprise web and mobile applications. Specialized in **PHP (Laravel, Symfony)**, **Flutter Mobile Development**, and **Cloud Optimization (AWS)**, with a strong focus on performance tuning, code optimization, and system scalability.

Proven ability to bridge complex backend architectures with intuitive, user-friendly frontend experiences, delivering high-performance, secure, and maintainable solutions. Experienced in refactoring legacy codebases to improve performance, reduce technical debt, and enhance application reliability.

Proficient across the full development lifecycle (SDLC), with solid expertise in Java, Python, and the full JavaScript stack, along with Agile methodologies, API integrations, and database optimization. Passionate about writing clean, efficient code and continuously adopting modern technologies to drive business success.

### TECHNICAL EXPERTISE

#### PHP Ecosystem

Laravel, Symfony, Core PHP, Doctrine ORM, WordPress

#### Frontend & JS Stack

React.js, Vue.js, Node.js, Bootstrap, JavaScript, jQuery, Ajax

#### Mobile Development

Flutter, Dart, Android Native

#### Programming Languages

Java, Python, Go, PHP, SQL

#### Databases

MySQL, PostgreSQL, MongoDB, SQLite

#### DevOps & Tools

AWS, Docker, Linux, Git, Jira, Bitbucket, Third-party APIs

### EXPERIENCE

#### Software Engineer - Vivan Web Solution Pvt Ltd

Dec 2021 - Present

- Spearheaded end-to-end development of enterprise-grade web applications using PHP frameworks and modern JavaScript.
- Design, code, and debug applications; conducted requirements analysis and software reliability analysis.
- Designed and maintained scalable database schemas and refactored legacy codebases to improve performance by over 30%.
- Evaluated and integrated emerging technologies (Flutter, Node.js) to modernize the tech stack.
- Collaborated directly with stakeholders for project scope, sprint planning, and implemented standards compliance.

### FEATURED PROJECTS

#### National Sports Id

PHP & MySQL

Software Engineer | Team Size: 5

Major sports platform facilitating league administration for thousands of users. Streamlined creating leagues, teams, and managing players and coaches.

- Automated match sheet generation and ID printing, reducing manual administrative workload.
- Implemented multi-step verification and secure payment gateways, increasing platform trust and revenue.
